EDUCATION

KJ Somaiya School of Engineering

Bachelor of Technology in Information Technology

2025-2029

Mumbai, India

EXPERIENCE

Somaiya Machine Learning Research Association

Contributed to the creative and technical activities of the student-led machine learning community.

Worked on community content and initiatives involving AI/ML and automation.

PROJECTS

FinLucid | Django, Python, PostgreSQL, yFinance | 2026 | [Github](#)

- Built a personal finance platform combining financial tracking and portfolio management into a unified web application.
- Implemented financial dashboards for tracking investments and portfolio performance using market data.
- Developed Django backend functionality and integrated PostgreSQL for managing financial records.

Schedulr | JavaScript, Browser APIs | 2025-2026 | [Github](#)

- Designed a browser extension for scheduling and organizing email-related tasks.
- Explored automation workflows to reduce repetitive email management.

TECHNICAL SKILLS

Languages: C, C++, Java, Python, JavaScript, SQL

Web: HTML, CSS, React, Tailwind CSS

Backend & Databases: Django, REST APIs, MySQL, PostgreSQL

Data & ML: Scikit-learn, Pandas, NumPy, Matplotlib, Machine Learning

Tools: Git, GitHub, Streamlit, n8n
