PROFESSIONAL SUMMARY

I am an aspiring FinTech and Data Science enthusiast who is always eager to learn, striving towards building data-driven projects that solve real-world problems efficiently.

EDUCATION

KJ Somaiya School of Engineering

Bachelor of Technology in information technology

2025-present

Mumbai, India

EXPERIENCE

Somaiya Machine Learning Research Association

- Contributed to the creative and technical activities of the student-led machine learning community.
- Worked on community content and initiatives involving AI/ML and automation.

PROJECTS

1. **FinLucid** | Django, Python, PostgreSQL, YFinance

- Built a personal finance platform combining financial tracking and portfolio management into a unified web application.
- Implemented financial dashboards for tracking investments and portfolio performance using market data.
- Developed backend functionality with Django and integrated database-driven financial records.

2026 – 2026

2. **Schedulr** | JavaScript, Browser APIs

- Designed a browser extension concept for scheduling and organizing email-related tasks.
- Explored automation workflows to reduce repetitive email management.

2025 – 2026

TECHNICAL SKILLS

Languages | C, C++, Java, Python, JavaScript, SQL

Web Tech | HTML, CSS, JavaScript, React, Tailwind CSS

Backend | Django, REST APIs, MySQL, PostgreSQL

Data & AI | Scikit-Learn, Pandas, NumPy, Matplotlib, Machine Learning, Yfinance

Tools | Git, GitHub, Streamlit, n8n
